

Now, digital parenthood acknowledgement is possible.

From January 1 2022, it is possible to confirm your parenthood via a simple e-service.

This means that all unmarried, new parents who are registered in Sweden can acknowledge their child via a computer or a smartphone the first 14 days after the child's birth. It is also possible to report joint custody with this e-service.

Read more about how this works, and what criteria that need to be met at:
